

August 2010

We want your input!

As many of you know, we own the 2 acres on the North side of our building, and want to develop the land as a...**Members-Only Dog Park!**

Features of the Park would be an affordably-priced membership, with pricing options for individual visits, as well as monthly and yearly passes. Members would have access through a keyed entry into a secure, fenced area that would include agility equipment, play bridges and possibly a water feature.

By offering two types of memberships, Private or Communal, members will be able to use the Park to fit their own dog's temperament. If your dog loves interaction with other dogs, then Communal use sharing the park with other dogs would be great. However, if your dog is happier playing with just you or his other family dogs alone, then Private use may suit you better. At most public dog parks, people with timid or even aggressive dogs may not be comfortable participating in off-leash play. The Private option will allow you to have a safe, large area to romp with your dogs, without worrying about other dogs. If you aren't sure about your dog's play style, our training staff can assist you with a temperament assessment.

In order to firm up our plans, we are asking for your suggestions and comments before going forward. This survey will help us determine if there is enough interest in using a service such as this.

1. I would use a Members-Only Dog Park : YES NO
2. I would pay \$30 for a monthly pass for Communal visits: YES NO
3. If "no", what would you be willing to pay for Communal monthly pass? \$ _____
4. I would pay \$50 for a monthly pass for Private visits: YES NO
5. If "no", what would you be willing to pay for a Private monthly pass? \$ _____
6. I would buy an annual membership pass for 10% Discount: YES NO
